

# RSpec Code Examples

✓ Passed ✓ Failed ✓ Pending

## Searches

50 examples, 3 failures, 2 pending  
Finished in 0.77292 seconds

### GET /searches

displays a list of searches page 0.15813s

### searches/edit

renders the edit search form 0.10855s

### View the homepage

A new visitor wants to learn about the site 0.01828s

### searches/index

renders a list of searches 0.01790s

### users/index

renders a list of users 0.00278s

## UsersController

### routing

routes to #update 0.00124s

routes to #edit 0.00099s

routes to #index 0.00091s

routes to #new 0.00091s

routes to #show 0.00097s

routes to #create 0.00096s

### searches/new

renders new search form 0.01326s

## Users

### GET /users

accesses a list of users page 0.01770s

## TweetFormatter

highlights search terms 0.00243s

## Search Twitter for a term

search by hashtag 0.12267s

## SearchesController

### routing

routes to #create 0.00114s

routes to #index 0.00088s

routes to #new 0.00103s

routes to #edit 0.00119s

routes to #show 0.00106s

routes to #update 0.00112s

routes to #destroy	0.00108s
the application	
when logged out	
doesn't have a logout link	0.00823s
when logged in	
doesn't have a login link	0.03477s
User	
basic user	
is invalid without a name	0.00363s
is unconfirmed without an email	0.00209s
is valid	0.00201s
searches/show	
renders attributes in <p>	0.00961s
Search	
add some examples to (or delete) /Users/lev/Documents/CS/Rails/ase/6m/sixmapp/spec/models/search_spec.rb (PENDING: No reason given)	
SearchesController	
POST create	
with valid params	
redirects to the created search	0.00881s
assigns a newly created search as @search	0.00852s
creates a new Search	0.00917s
with invalid params	
assigns a newly created but unsaved search as @search	0.00756s
re-renders the 'new' template	0.00749s
GET index	
assigns all searches as @searches	0.00955s
GET show	
uses the TwitterService to request search results	0.00565s
GET edit	
assigns the requested search as @search	0.00900s
GET new	
assigns a new search as @search	0.00650s
PUT update	
with valid params	
redirects to the search	0.06893s
assigns the requested search as @search	0.00889s

---

updates the requested search

0.00886s

with invalid params

---

assigns the search as @search

0.00936s

---

re-renders the 'edit' template

0.00936s

DELETE destroy

---

destroys the requested search

0.00934s

---

redirects to the searches list

0.00780s

users/edit

---

renders the edit user form

0.00220s

SessionsController

#create

---

redirects to the dashboard after login

0.00783s
